

Public Record Search Final Orders Information

SEARCH CRITERIA

The final orders can be searched using a variety of criteria.

Select “All” to return a final order of any of the three categories. Select one of three categories of Final Orders: Licensing/Regulation, Medicaid or Medicaid Sanctioned Providers.

- **Licensing/Regulation** is the category of final orders that involves licensure and disciplinary actions against healthcare providers that the Agency licenses and regulates.
- **Medicaid** is the category of final orders that involves rate setting, recoupment and contractual issues between the Agency and Medicaid providers in the state of Florida.
- **Medicaid Sanctioned Providers** is the category of final orders that involves the Agency imposing sanctions on Medicaid providers that violate statutes, rules or the terms of their Medicaid provider agreements.

Order Type on the search screen refers to four different types of final orders issued by the Agency. They are:

- **Defaults and Dismissals** – These are final orders that are usually entered when a provider does not respond to agency action or its response is defectively and the provider either does not or cannot cure the defect. These final orders also include cases where the parties agreed to dismiss the case.
- **Recommended Orders** – These are final orders that result from a recommended order either from an administrative law judge at the Division of Administrative Hearings or an informal hearing officer.
- **Settlement Agreements** – These are final orders that adopt and incorporate a settlement agreement entered into by the parties to resolve the litigation of the case.
- **Miscellaneous Orders** – these are final orders that do not obviously fit under any of the other three categories. Examples would include those that rule on Petitions for Variances or Waivers or Declaratory Statements as well as bid protest cases. They can fall under either Facilities or Medicaid.

Party Name can be selected if you know the name of one of the parties on the final orders. To assist you with your search a filtered list of names is returned as you type in this field.

Date Rendered allows you to narrow the results based on a date range.

Case Number can be entered if you know the case number. For example, the format for Medicaid Program Integrity cases is "CI ##-####-###".

Formal/Informal Case Number can be entered if you have this information.

Florida Administrative Rule 59G-9.070 was amended in September of 2010. As a result, sanctions for certain criminal convictions that would be listed as (8)(A) sanctions under the old rule are now listed as (7)(R) sanctions. Additionally, sanctions for non-payment or partial payment of monies owed 8(B) and sanctions for failure to reimburse an overpayment 8(C) are now listed as 7(S) sanctions. Violation Codes (8)(A), (B) and (C) will continue to be listed in the key since they appear in older final orders.
